

SPECIALTY WINDOWS

Bay Windows

Bringing in the Beauty of the Outdoors to Compliment Your Home Decor

Frame & Sash

- Lites available with fixed or operable casement windows, with a choice of hinging, or double hung windows.
- Unit comes fully assembled for ease in installation
- Secondary weeping system provides the optimum moisture resistance.
- Vinyl interior mullion posts
- Window head & seat are constructed of 1" furniture-grade birch.
- Fusion welded frame provides maximum view while minimalizing obstruction
- Bay windows are available in either 30° degree or 45° degree angle configurations with operating casement, fixed casement or double hung flanking windows.
- Optional oak head & seat boards and oak mullions.
- Optional polystyrene insulated seat board.

Weatherstripping

- Dual fin weatherstripping throughout full length interlock providing an optimal level of energy efficiency plus added protection from noise, water and air penetration.

Glass

- All windows use Intercept® Spacer insulated warm-edge glass standard.
- Low-E/Argon Gas filled glass units provide superior year-round comfort and savings.
- Optional tempered glass for added stability.

Hardware

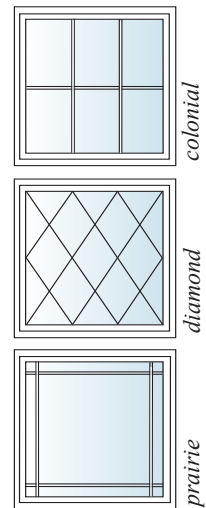

- The operable casement units have a multi-point locking system.
- Chain support for increased structural integrity
- Optional bottom support system adds strength to installation.

Screens

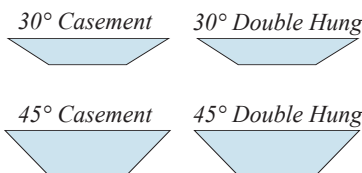

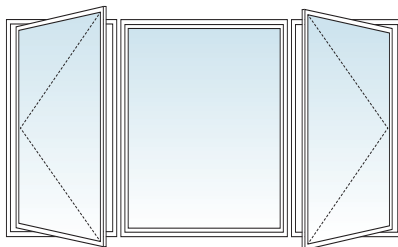

- Operating vents include easy removable screens.

Grids

- Between-the-glass contour grid available in white or tan vinyl and available in three styles: Colonial, Diamond and Prairie.

Versatile Bay Windows

Bay windows have a more "angular" look comprising of 2 flanking windows and a larger picture window center.

Standard with casement flankers, double hung flankers are optional.

Width		Height
145"	Max	72"
36"	Min	27"
